

Word Cloud From CodeAsp.Net

Published 7/21/2009 by [Tim Eisenhauer](#)

I've always thought that these word clouds were pretty neat, and if you're new to these (and living under a rock)... here's how it works. The clouds give greater prominence to words that appear more frequently in the source text. So, when I input the CodeAsp.Net website, this is what pops out. Pretty neat...huh?

You can make your own word cloud [here](#):
